

Vivitar PV Sport 8x21 Binoculars

Only £4.95 + Vat

DCF8x21 136m / 1000m

Vivitar PV Series, designed with the sports enthusiast in mind, are built tough and offer a host of popular features.

Traditional porro prism optical construction ensures edge to edge clarity and maximum light transmission.

Roof prism optical construction for a reduced weight and size.

Centre-wheel focus design with separate right ocular adjustment allows compensation for vision differences between the user's eyes.

Multicoated lenses decrease light and image refraction as well as reducing lens flare, while helping to maintain accurate colour rendition.

Rubber armoured in an effort to reduce shock damage and improve your grip in bad weather.

Each pair of binocular includes a nylon carry case, shoulder strap and lens caps.
